

REMARKS

Status Summary

Claims 43-57, 60-75, and 78 are pending in the present application and have been allowed via an Examiner's Amendment.

Claim Amendments

Claims 43 and 61 have been amended in order to remove the reference to the figure and element added by the Examiner that was not authorized at any time by the Applicant, remove the extraneous words "and" in the claims, and properly add the original dependencies of the added features from claims 58, 59, 76, and 77 in the claims. The "(Figure 1, Element 24)" phrase is not part of the claim or claim history and should not limit the scope of the claims in any way. No new matter has been added. It is respectfully requested that the amendments to claims 43 and 61 be entered into the record.

CONCLUSION

The Examiner is respectfully requested to telephone the undersigned patent attorney at the below-listed number if, after reviewing the above Remarks, the Examiner believes outstanding matters remain that may be resolved without the issuance of a subsequent Official Action or the filing of a Notice of Appeal.

DEPOSIT ACCOUNT

The Commissioner is hereby authorized to charge any additional fees, or credit any overpayment, associated with the filing of this paper to Deposit Account No. 50-3512.
